Good job.

You haven't changed one bit. You're still as amazing as ever.
It was the state-of-the art equipment, not me.

But... that little fella be might blind in one of his eyes.
And might be paralyzed in the legs...
We expected as much.

Okay.
Well, you were always the best in dealing with post-surgery care.

So how does it feel...?
Don't you miss it? Operations like this...

No, not at all.

.....
Do you want to stay for tea? Since you're already here.

No, I'm fine. I've done what I came to do, I'm going to head home now.
Tea doesn't take forever.

I don't know when
I'll be able to see you next...
Well...
...since that's the case.

It's been a long time since you came here. This should actually be your office.
Not mine...

Even if this was my office, I wouldn't stay here...

.....

...Long time no see.

Was the operation...
An excuse from the very beginning?

It wasn't her idea.
It was mine.

...Could you give us a moment?

Yes, sir.

I've already told you...
I have nothing to say to you.

.....
Aren't you curious why I brought you to the hospital?

Not at all.
I only have one thing I'm curious about.

How many animals did you euthanize today?

From the beginning, you thought my ways and methods were wrong.
Well let me ask you this.

What's the difference between you and me?

Didn't you euthanize hundreds of animals as well?

Sit down. I have something to say.

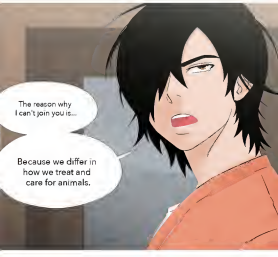
.....
...I have to go.

So you have no intention...
to return?

.....

...Father.
I respect you as a senior in the field and for your contributions.

But...



The reason why I can't join you is...
Because we differ in how we treat and care for animals.

All the animals you've treated.
The names and faces of all the animals you've euthanized.
The expressions on the faces of their owners...

Do you remember them?
.....

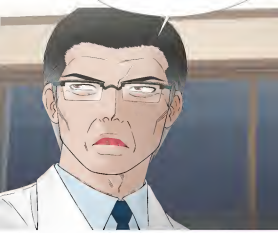
For me, a vet is not just someone who physically treats animals.

I believe a vet needs to treat the hearts of the animals and the owners.

Treat the heart?

Wounds and diseases are easy to see. But ... hearts?

That's not "unique."
It's a "delusion."



Could be.

But what I want to create is a future for animals.
And I will make that a reality.

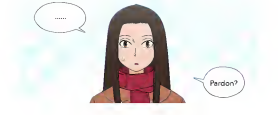
To you now, they may seem like just money... as numbers...
But I believe there was once a time when you genuinely cared about them.

I don't think the road I've chosen is wrong.
It's just...
Different than yours.

To me...

Every day is a gift...
because I get to
meet them.

Is he a companion...
Or a toy?

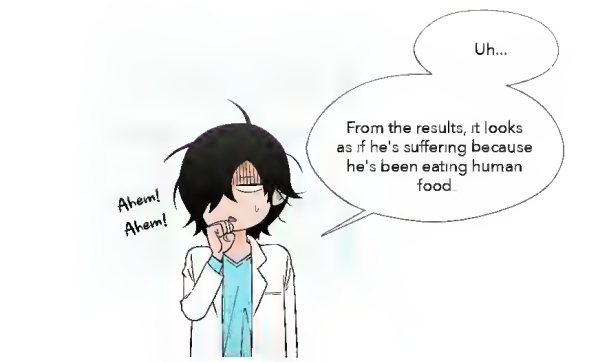


.....
Pardon?

Jeez..
Don't you understand me?
Is he a companion to you...

Or a jok...

.....
Glare

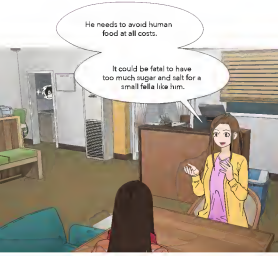


Uh...
From the results, it looks as if he's suffering because he's been eating human food.
Ahem! Ahem!

He's dehydrated but he'll recover in no time if we give him an IV drip and some medication.
You need to pay special attention to him so please take special care.
I didn't...
Could you please take a seat over there?

It's not too serious so don't worry too much.

Peek



He needs to avoid human food at all costs.
It could be fatal to have too much sugar and salt for a small fella like him.

A lot of the illnesses pets face are easily preventable.

I'm sure he's already receiving a lot of love..
But just a little more care and he'll be perfect.

Get home safely.

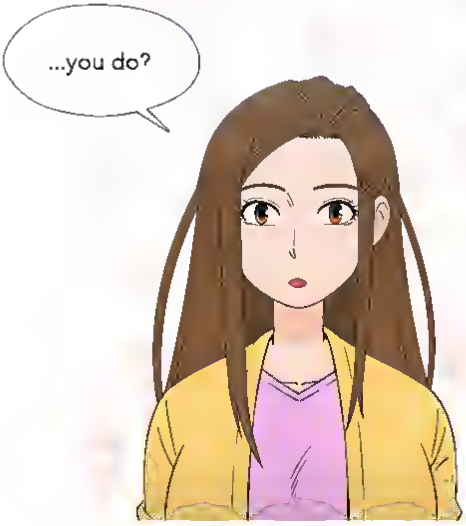
How's work?

Looks like you're getting used to things?
Not necessarily. I still have a lot to study...
How should I put it? It's neverending.

But I like it because I'm learning a lot from you...
And because I can spend time with animals.

Right?
I like it too.



...you do?

Huh?
Why?
Ah...
Nothing.

Oh...yeah!
I almost forgot to feed them.

...I like it.

Being with animals.

And

Having someone who loves animals by my side...

I really like it.

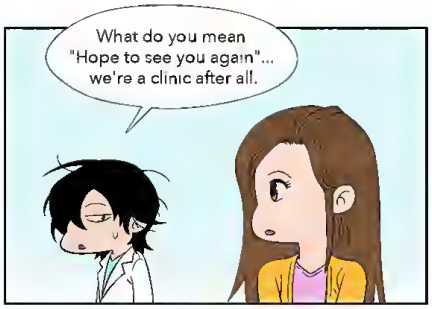
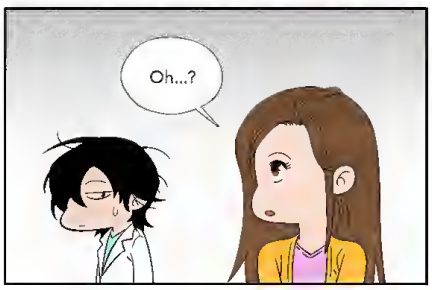
Hope to see you again.



What do you mean "Hope to see you again"... we're a clinic after all.



Oh...?

Hope you never come again~
No. No. No.

3. It's pretty easy?

The construction of a five thousand animal adoption center is almost complete.
Five thousand...
How big is that?
Is that even possible?
Yeah. I bought two hills and cut them down.
It's easy. Buy, cut, build.
